

A support program designed for caregivers and people living with rare genetic diseases of obesity

Rhythm InTune is your source for personalized support

Rhythm InTune provides resources, education, and information tailored to fit the unique needs of people living with rare genetic diseases of obesity, including Bardet-Biedl syndrome (BBS), POMC deficiency, PCSK1 deficiency, or LEPR deficiency.

Dedicated support

The Rhythm InTune Program can help you:

Access
educational
resources

Understand
insurance
coverage

Get started
on a Rhythm
treatment

LEPR=leptin receptor; PCSK1=proprotein convertase subtilisin/kexin type 1;
POMC=pro-opiomelanocortin.

Support when you need it

Rhythm InTune offers education and resources to guide you at every step

- Information about rare genetic diseases of obesity, including BBS
- Support for patients starting or continuing on a Rhythm treatment as prescribed by your doctor
- Educational resources for building healthy habits

Rhythm InTune can help you get started on treatment by confirming your insurance benefits, sharing information on the insurance approval process, and providing financial assistance to eligible patients.

The Rhythm InTune program is support that's tailored to you.

The Rhythm InTune program, on behalf of Rhythm Pharmaceuticals, is for informational purposes only. It is not intended to provide medical care or treatment advice. We encourage you to always speak with your healthcare provider regarding your care.
